Hands Off Venezuela!

The U.S. government's recent belligerent statements and actions against the democratically elected government of Venezuela pose a direct threat to working people in that country. Similarly aggressive words and actions from the White House and U.S. Congress were used to prepare the ground for previous U.S. interventions from Vietnam to Iraq. On numerous occasions, millions of Venezuelans have mobilized to defend themselves against efforts to destabilize and overthrow the government of Hugo Chavez whom they overwhelmingly support. The U.S. Hands Off Venezuela Campaign opposes all forms of intervention by the U.S. government and its agencies in Venezuela and works to:

* Educate and raise awareness about events in Venezuela in order to counter the bias of the mainstream media.
* Build solidarity between American and Venezuelan trade unionists and working people in general.
